This is to inform you that the Columbia Road Business Association is having difficulty verifying if the money was deposited into the FUND account. Teresa went to the bank but because she does not have the bank account number she could not verify the wire Mr. Dubner said he send. Because it is difficulty to reach Chris or Martin, The Columbia Road Businesses Association is requesting that Teresa Lopez should be included as a signer on the FUND account. The Columbia Road Businesses Association is requesting that after the money is verified half of this money be credited to the Columbia Road Businesses Association. We are unaware of Chris's permanent residence or phone number, he frequently changes his phone number. In addition, Mr. Malik and Martin are both unattainable because Mr. Malik is currently on vacation and we do not have access to the entrance of Martin's apartment. **B**ased on all these details we are requesting to have half of the money credited to the business account so the businesses can move forward.
