---

Hey all,

Malik has sought our help by asking for a \$15,000 loan.

He's been there for our community. Our funding is supposed to help people like Malik.

The trouble is our group can't seem to get our stuff together to start having regular meetings we are committed to. In that sense, the Fund has NOT really launched.

But Champlain Street Neighbors with the original \$100,000 has been able to dispense some monies to those who have helped so far.

I have checked in with Daniel, he said if two of the CSN principles, namely Martin and Yasmina agree by electronic signature, we can send an emergency grant of \$5,000 to Malik asap so he can pay December rent.

Malik has also asked for a loan, but until the Fund is ready to meet and stay committed to meeting and working per our bylaws, getting this funding out is impossible.

The \$5,000 would be coming from the last of the CSN monies. If we are to go beyond that amount, it has to come from Fund monies. For it to come from Fund monies, we need to meet.

All that said, I'd like to ask CSN principles Yasmina and Martin to agree to grant \$5000 to Malik for December rent by electronic signature.

As witnessed by Teresa, me, and Daniel through this email chain.

Thanks,  
Chris

PS: The \$27,000 earmarked for 2384 Tenants is ready to be given to Yasmina and Martin who just opened their account. Daniel, can you clarify with Yasmina and Martin to whom the check must be written to make sure this gets done soon.
